

## Webinar | Public procurement in health: Setting sustainability criteria in tenders

*28 March 2019, 15:30-16:30 CET*

# ABOUT HCWH EUROPE

- A **non-profit coalition** of hospitals, healthcare systems, healthcare professionals, local authorities, research/academic institutions, and environmental and health organisations.
- **Bringing the voice of healthcare professionals** to the European policy debate about key issues, such as: chemicals, climate change and health, green building, sustainable procurement, pharmaceuticals, sustainable food, and waste management.
- **Educating the healthcare sector** to understand the importance of the environment and press healthcare leaders and professionals to advocate for broader societal policies and changes.

# HCWH VISION, MISSION AND GOALS

## Vision

Healthcare mobilises its ethical, economic and political influence to create an ecologically sustainable, equitable and healthy world.

## Mission

Transform healthcare worldwide so that it reduces its environmental footprint, becomes a community anchor for sustainability, and a leader in the global movement for environmental health and justice.

## Overarching goals

1. Protect Public Health from Climate Change
2. Transform the Supply Chain
3. Build Leadership for Environmental Health

# MAIN POLICY AREAS

**Pharmaceuticals**

**Sustainable Food**

**Climate & Energy**

**Sustainable Procurement**

**Safer Chemicals**

# HCWH EUROPE MEMBERS

- Currently **88 members** in **25 countries** of the WHO European region, including **16 Member States** of the European Union.
- Membership of HCWH Europe is based on an organisational **commitment to the mission and goals of HCWH**, and desire to participate fully in helping to achieve them.
- Our members include hospitals, healthcare facilities, regional authorities, professional associations, other NGOs, etc.

# GLOBAL GREEN AND HEALTHY HOSPITALS (GGHH)

GGHH has 1,046 members in 54 countries that represent the interests of 32,157 hospitals and health centers.

## USA and Canada

Practice Greenhealth, GGHH's implementation arm in the US with members representing 1,147 hospital, is an organizational member, along with 9 health systems and medical centers. In Canada, GGHH members include 1 hospital, 5 health systems and 2 organizations representing the interests of 1,082 hospitals and health centers.

## Latin America

554 hospitals, 71 health care facilities, 40 health systems and 15 organizations, representing the interests of 1,840 hospitals and health centers.

## Global

1 health system and 4 organizations representing the interests of 4,900 hospitals and health centers.

## Europa

24 hospitals, 1 health care facility, 19 health systems and 13 organizations, representing the interests of 7,234 hospitals and health centers.

## Asia

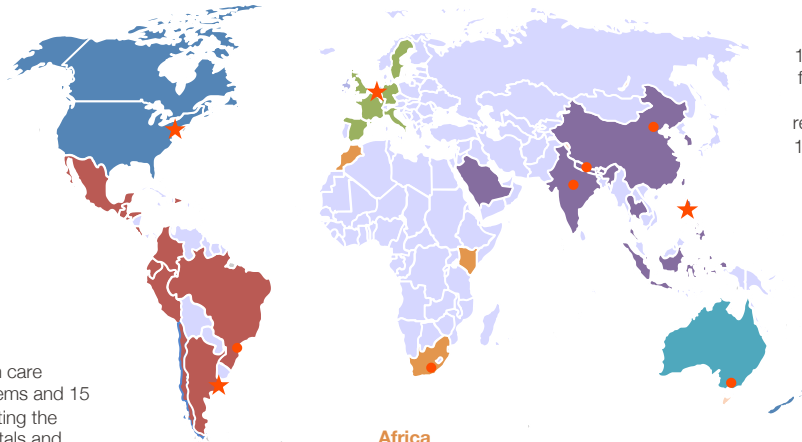

109 hospitals, 4 health care facilities, 10 health systems and 31 organizations, representing the interests of 13,571 hospitals and health centers.

## Pacific

6 hospitals, 1 health care facility, 27 health systems and 10 organizations, representing the interests of 793 hospitals and health centers.

## Africa

59 hospitals, 20 health care facilities, 6 health systems and 3 Organization, representing the interests of 1,590 hospitals and health centers.

# HCWH EUROPE WORK ON SUSTAINABLE PROCUREMENT

- Working on the implementation of the European Public Procurement Directive (EU PDD)
- Engaging in the European debate on circular economy
- Build capacity and raise awareness about safer and more sustainable alternatives in healthcare:
  - Sustainable Health in Procurement Project ([SHiPP](#))
  - Safer disinfectants ([SAICM 2.0](#))
- Webinars, workshops, reports are all available on [www.noharm-europe.org](http://www.noharm-europe.org)

# POLICY FRAMEWORK: DIRECTIVE 2014/24/EU

- Give public authorities the power to **include environmental and social criteria when procuring products and services** – linked to the subject matter
- Encourage public authorities to strategically use procurement to:
  - Obtain better value for taxpayers money
  - Contribute to a more innovative, sustainable, inclusive and competitive economy
- Move towards **value-based** (as opposed to price-based) procurement
- Promote a **circular economy**

# SUSTAINABILITY CONCEPTS

- **Most Economically Advantageous Tender (MEAT)** is a cost-effectiveness approach that also considers sustainability elements from any stage of the product/service lifecycle and not just the sustainability of materials.
- **Lifecycle costing** includes the lifecycle costs of works, supplies, or services when considering the price.
- Require specific **environmental and social labels** (and equivalents) as award criteria and technical performance requirements.
- Additional tool: European **Green Public Procurement Criteria**

# SPEAKERS

**Hulda Steingrimsdóttir,  
Environmental Manager -  
Landspítali University  
Hospital,  
Iceland**

**Susanne Backer, Project  
Leader for Circular  
Economy - Aarhus  
University Hospital,  
Denmark**

**Arianna Gamba,  
Procurement Policy and  
Projects Officer - Health  
Care Without Harm Europe,  
Belgium**
